

# ELLI Champions' Accreditation

## A two-day workshop from RSVP Design

### An RSVP Design Workshop

How do we enhance learning power?

The ELLI profiling tool enables us, for the first time, to assess and develop a learner's confidence and competence in seven key dimensions of learning and the Learning Power methodology supports the further development of those vital capabilities.

This two-day workshop will accredit you to use ELLI methodology, the ELLI individual profiles and associated learning tools within your own organisation in the development of your employees and in the enhancement of a learning culture.

### Workshop Objectives

This active workshop is intended to:

Explore the research behind ELLI and its 7 dimensions and how each dimension can be used in facilitating learning.

Experience a variety of practical learning activities that demonstrate the ELLI dimensions in action.

Train you to use ELLI in individual and group learning, with a focus on developing powerful coaching and mentoring conversations

Explore potential applications of Learning Power in your learning design & delivery, in order to improve the effectiveness of business results.

Give you an approved accreditation as an internal user of ELLI, allowing you to access profiles and create ELLI projects in your own organisation.
