Effective Lifelong Learning Inventory

How can I get involved as an organisational or corporate user interested in bringing ELLI 'in-house'?

In-house ELLI training

Set up an ELLI project and train internal ELLI Champions to deliver ELLI in-house

This allows you to.....

Access and use ELLI profiles and ELLI methodology with your own employees, within your own organisation

Set up an ELLI project (with support from ViTaL Partnerships if the project could provide valuable research data) within your organisation

Access the ELLI database for new materials, research data, support resources

Become part of an on-line network of ELLI Practitioners who can offer support and guidance on the use of ELLI

Requirements

How do I go about starting this process?

1. Set up an initial meeting with an ELLI Practitioner to establish what ELLI can offer your organisation.

Then:

2. Attend a one day Introduction to ELLI training workshop.

Day 1: An introductory day, to introduce you to the background and potential of ELLI and to allow you to ensure that it is right for you. This could be done in two ways:

1. Send a small number of interested employees to an 'open' workshop for one day, delivered by an Accredited ELLI Practitioner or
2. Organise an in-house day for 8-24 employees from your own (or networked) organisation(s), to be delivered by an Accredited ELLI Practitioner (This becomes increasingly cost effective for groups of more than 12)

From this, the project becomes a bespoke design. Negotiate with the Accredited ELLI Practitioner around the scope and scale of the project, including the number of ELLI Champions to be trained. Any organisation using ELLI must undertake ELLI Champions Training - an intensive 2 day training for up to 24 employees in the use of ELLI in a variety of learning contexts. ELLI organisations must have a minimum of 2 ELLI Champions, trained by Accredited ELLI Practitioners, in order to access and use ELLI profiles and materials.
