

UK Education Price List

Toolbox products are individual activities or exercises that are designed to improve or develop individual student skills. They usually last for 20-90 minutes, but can be adapted to suit 40 – 50 minute classes. They are designed for small groups of up to 32 students and require a limited amount of preparation and administration. These activities do not require additional teacher training support from RSVP Design, but we do provide teacher specific facilitator notes. They can be run by any competent teacher, and are supplied with specific education sector notes.
