Toolbox products are individual activities or exercises that are designed to improve or develop individual skills, or to raise awareness of important organisational issues. They usually last for 20-90 minutes, are designed for small groups of up to 16 people and require a limited amount of preparation and administration. Toolbox activities can be run by any competent facilitator using the notes supplied and do not require additional trainer training support from RSVP Design.

Powertool products are more complex, extended activities that address more interlinked management and leadership skills. These activities last from 2 -8 hours and cater for larger groups - generally 30 people or more; or multiple groups working in parallel. Powertools need a higher level of administration and supervision and more input from RSVP Design, either in trainer training or in initial facilitation.
