

## Using abstract images to make conversations flow more freely

Dialoogle is a metaphor-based product created in Denmark by Michael Koefoed & Jacob Lindeblad. We think it is an ideal addition to the RSVP Design range of metaphor-based learning tools, and are delighted to offer this product directly to our customers. Dialoogle is a creative tool to kick-start, renew, diversify and qualify communication in dialogues and group conversations. Dialoogle makes use of a series of high quality abstract images, created to stimulate associations, inspire creativity, and facilitate versatile discussions of feelings, perceptions and ideas.

Apart from being great fun, Dialoogle makes conversations flow more freely, enhancing the value and outcome for all participants. It is an ideal tool for anybody striving to improve the quality of conversations in any context. You can use Dialoogle for developing business strategies and visions, for performance reviews and conflict solving, for creative processes, teaching, cross-cultural and interdisciplinary projects. Only fantasy sets the limits for the use of Dialoogle as an effective communication tool. *"A picture is worth a thousand words."*

Dialoogle is a robust moisture resistant activity that comes packaged in a sleek, high quality finished cardboard box with magnetic closure. Dialoogle is available in both a Magnum Set and Pocket Sized version.

- The Magnum Set contains 58 (19cm x 19cm) Picture cards, and a user's guide with 9 inspiring exercises. A Magnum Set is ideal for use in one to one situations or with groups of up to 30 people.
- The Pocket Set contains 58 (9cm x 9cm) Picture cards, and a user's guide with 9 inspiring exercises. A pocket Set is ideal in one on one situations and in groups of up to 16 people.

A carefully created and selected set of abstract images, photos, and symbols to creatively kick-start, renew, diversify, and qualify dialogues and conversations. Each version comes with a facilitator manual.

How/when to use Dialoogle:

- To develop participant's decision making skills
- To learn to communicate effectively
- Performance improvement
- Working with conflict
- Strategic thinking
- Understanding of other people's perspectives

*"I used the Dialoogle cards at the start of my Workshop and can't tell you how amazing they were! Really well received and were hugely beneficial in terms of conveying where the participants were at with their business. I'm not sure that we could have achieved the same richness without them. Plus they were used well as an external expression of what was going on in people's heads - a good fit with inside + outside!"*  
Allison
